Product Designer

SOS Express | January, 2025 - August, 2025 | Abuja, Nigeria

- Built and maintained a scalable design system for the three logistics platforms, increasing design consistency and reducing engineering cycles by 34%.
- Conducted primary research and usability testing, leading to a mobile-first design approach that improved user satisfaction by 25%.
- Designed progressive web applications (PWAs) for courier, business, and user portals, boosting accessibility and cross-device engagement.
- Simplified the delivery experience through journey mapping and iterative user testing, enabling direct communication between users and couriers.
- Developed a cohesive brand identity system spanning software, vehicle branding, and digital channels, improving brand recognition.

Product Designer/ UX Strategist

Alveum | December, 2024 - March, 2025 | Ilorin, Nigeria

- Reduced design-to-development handoff time by 40% by creating a 0-to-1 design system for a warehouse management platform.
- Designed and delivered a warehouse management SaaS application for retail and bulk sales businesses, improving sales documentation and reporting accuracy.
- Authored comprehensive design documentation, reducing recurring design-engineering sync meetings by 35% and providing a reusable system guide.

Product Designer

Cerebro Hive | October, 2023 - November, 2023 | Enugu, Nigeria

- Designed the web app interface and design system for an admin portal supporting student documentation and international payments.
- Conducted user interviews and usability tests, uncovering roadblocks that informed redesigns, improving task completion rates by 20%.

UI/UX Designer

Cendmate | February, 2023 - March, 2023 | Vancouver, Canada

- Led design for a financial mobile application simplifying cross-border money transfers between Canada and West Africa.
- Delivered personas, journey maps, wireframes, prototypes, and usability tests, ensuring an intuitive user experience.

Web Designer, UI/UX Designer

Monievent | May, 2022 - July, 2023 | Lagos, Nigeria

- Designed the company website and client portal for POS transactions, increasing adoption among SMEs.
- Partnered with engineers to align UI/UX with technical constraints, reducing frontend bugs by 30%.

Front End Developer and UI/UX Designer

JJAIBOT | August, 2020 - February, 2021 | Cyprus

- Collaborated with data scientists to design remote weather prediction software for wildfire tracking.
- Created wireframes and low-fidelity prototypes to validate navigation and improve usability.

Personal projects

Multi-User School Management System | December, 2023 - February, 2025

- Designed and developed a school management system (SaaS) digitizing student registration and assessment processes, reducing paperwork inefficiencies by 70%.
- Conducted user research, personas, and usability tests, resulting in higher adoption among schools.
- Conducted and analyzed unmoderated testing by the users to best understand their real world interaction with the system.

File Search using Large Language Models | July, 2024 - August, 2024

- Designed a file management application integrating natural language processing (NLP) and image recognition, reducing search time by 40%.
- Created an extended mode leveraging server-based recognition for higher accuracy.

Swimming Goggles For Visually Impaired | January, 2024 - June, 2024

- Researched prescription eyewear market gaps to design swimming goggles with integrated lenses for accessibility in public pools and beaches.
- Conducted user interviews and focus groups to truly understand individuals with different prescriptions and their pain-points.
- Built a working prototype with airtight sealing and a temple harness, improving usability for users with corrective eyewear.

Education

- Computer Science | Nigerian Defence Academy | 2021 – 2022.
- University of Ilorin | Geology and Mineral Sciences | 2014 – 2019.
- Adobe Design Essentials | Udemy | 2021

Skills

Design Skills:

Journey Mapping, Design Systems, Information Architecture, Personas, User Interviews, Wireframing, Prototyping, User Research, Accessibility, Inclusive Design

Design:

Figma, Framer, Webflow, Phase

Coding:

HTML, CSS, JavaScript, Python, PHP
